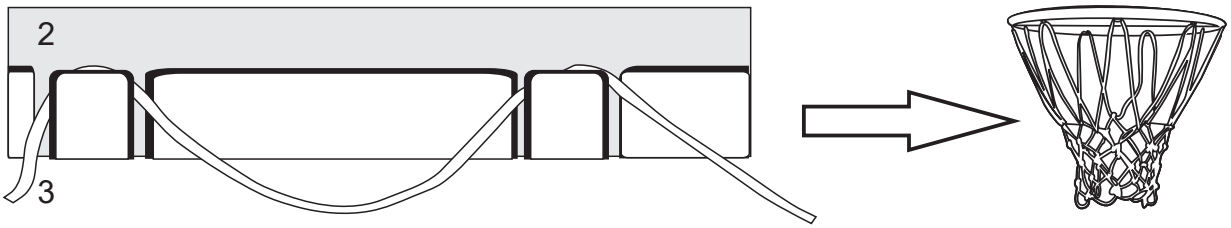
(For common trampoline)

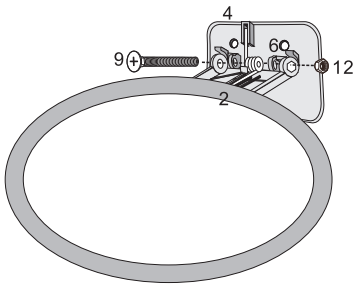
18 Inner Hexagon Spanner x1

Step 1



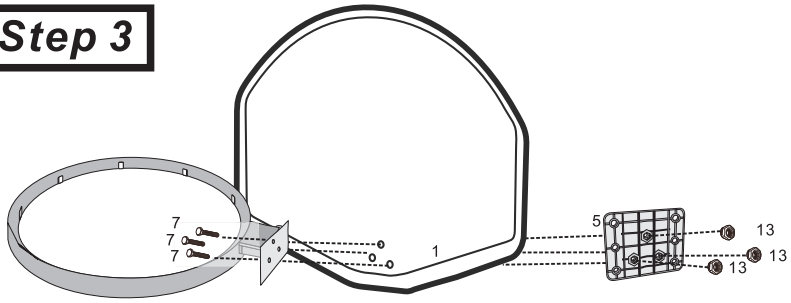
Hang the net ❸ into the slot of ring ❷.
Note: You will need a phillips screwdriver ⓯ to finish step 2 and step 3.

Step 2



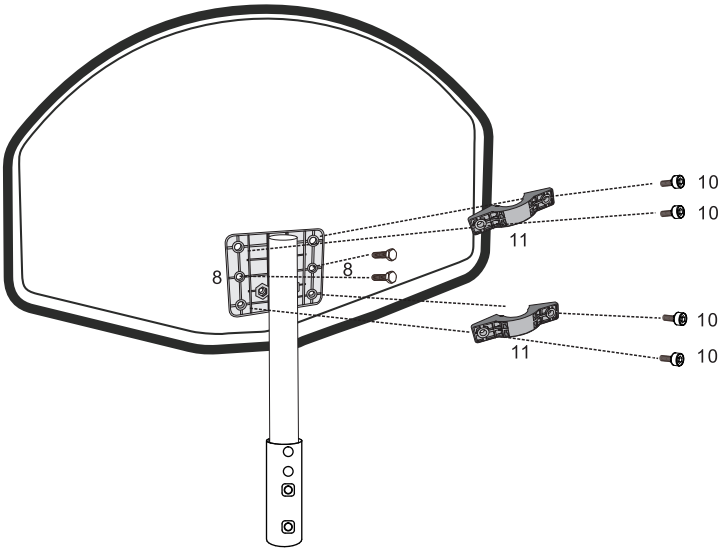
Connect ❹ and ❷ with spring ❻、bolt ❾ and nut ⓬ like above.

Step 3

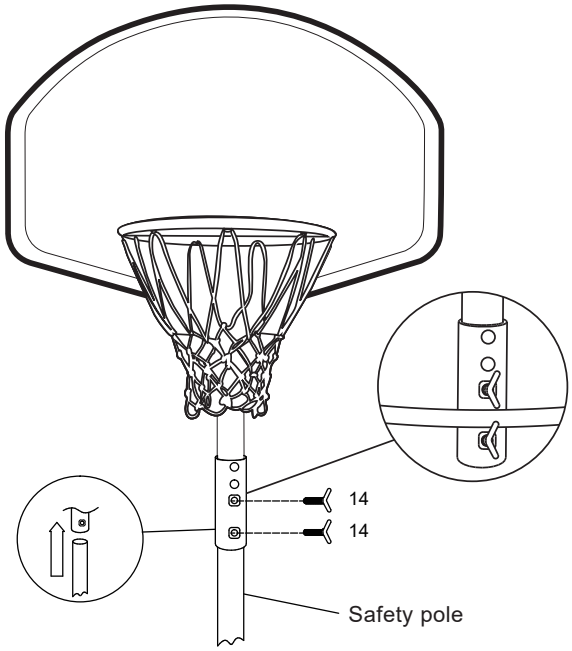


Connect the assembled ring with ❶ and ❺ by 3pcs of bolt ❼ and nut ⓭.

Step 4



Step 5



Attached 2pcs screws ❽ onto the backboard. Then assemble connection tube ⓱ onto the back and tighten by clamp ⓫ and bolt ❿ with spanner as above.
Note: Use curved connection tube for pumpkin trampoline.
Use straight connection tube for common trampoline.

Attaching the basketball set to the trampoline enclosure pole:

Remove the black cap on top of the safety net pole enclosure pole of the trampoline. Remove the screw and slide the cap off. (Do not use an enclosure pole by the entrance)

Slide the adaptor of the basketball set inside the enclosure pole:

Please note: Keep the fiberglass pole of safety net on the outside of the adaptor.
Once the adaptor is connected - tighten the Wing nut. Finally sit the fiberglass pole of the enclosure between the Wing nuts to lock it in place.
